RIC ANNOUNCES AN 800 NUMBER

RIC added a toll-free telephone number, 1-800-633-7701, in October to make it easier for rural communities to obtain the information they need. President Bush's 1990 rural economic development initiative recommended that RIC provide toll-free access for rural communities.

RIC OPENS A RURAL HEALTH INFORMATION SERVICE

Communities in the United States can now get information on rural health care issues through the Rural Information Center Health Service (RICHES) at the Rural Information Center. RICHES can be reached toll-free by dialing 1-800-633-7701.

The Office of Rural Health Policy in the Department of Health and Human Services funds the health information service which began operation in October.

RICHES is a clearinghouse for information on a broad range of rural health topics, including health service delivery, health personnel, policy, services utilization, financing, and the health status of various groups of Americans. The RICHES service targets users interested in rural health issues, especially health care professionals, researchers, extension agents, educators, all levels of government, and health-related groups.

The RIC/RICHES staff assists rural health groups to obtain answers to health-related questions, acquire research information, and identify funding sources for upgrading rural health programs.

NEW RIC STAFF MEMBERS

Teresa Brown joined the RIC staff in September as a Medical Librarian for RIC's Health Service. Mrs. Brown earned a B.S. in special education from Texas Tech University in Lubbock in 1974 and an M.L.S. from the University of Maryland in 1982. Since 1985 Mrs. Brown has worked at the University of Maryland McKeldin Library as a health science reference librarian.

Dorothy Heise joined the RIC staff as a Technical Information Specialist. Mrs. Heise earned a B.S.L.S. in library science from Edinboro State College, Edinboro, Pennsylvania, in 1968 and an M.L.S. from the University of Maryland in 1987. She has twenty years of library experience, having worked both as a school librarian and a special librarian in private industry before becoming a federal librarian. Mrs. Heise worked at USDA's Economic Research Service Reference Center from 1979 to 1985 and the National Agricultural Library's Indexing Branch from 1985 to 1990 before joining the RIC staff in September.

RIC GRADUATE INTERNS

Mr. and Mrs. Tom Shilts joined the RIC staff in September to complete three month internships. Mr. Shilts earned a B.A. in English while his wife, Carla, earned a B.A. in biology and psychology -- both from Lake Superior State University, Sault Ste. Marie, Michigan, in 1986. Both Mr. and Mrs. Shilts are currently enrolled at Clarion University of Pennsylvania. Tom Shilts will receive a Master of Library Science degree in December 1990 and will immediately begin his first library position as
